

ROBERTS MOVING DRIVE WESTWARD

Closes Middle Tennessee Campaign Next Week at Murfreesboro.

KNOXVILLE, Tenn., Oct. 15.—Announcement has just been made here of additional speaking dates for Gov. Roberts in his campaign for re-election. The complete schedule for the remainder of his itinerary, including the new speaking dates, is as follows:

McMinnville, Oct. 18, 10 a.m.; Smithville, Oct. 18, 2 p.m.; Gainesboro, Oct. 19, 10 a.m.; Carthage, Oct. 19, 2 p.m.; Franklin, Oct. 20, 10 a.m.; Columbia, Oct. 20, 2 p.m.; Paducah, Oct. 21, 10 a.m.; Fayetteville, Oct. 21, 2 p.m.; Lynchburg, Oct. 21, 7:30 p.m.; Winchester, Oct. 22, 1 p.m.; Shelbyville, Oct. 22, 10 a.m.; Murfreesboro, Oct. 23, 2:30 p.m. The next week in West Tennessee.

Thursday night Gov. Roberts spoke before a large crowd at South Pittsburg, and Friday afternoon he was given an ovation at Jasper.

In his speeches Gov. Roberts is devoting most of his time to state issues, defending the new tax system, and the school law and the state police bill.

He declares that the old taxing system was so rotten that even the Republicans as far back as 1916 had demanded the creation of a state tax commission in their platform; that they had reiterated their demand in 1916. But he said that when a Democratic legislature, at the urgent request of the Democratic governor, had enacted a bill creating such a commission and giving it the power to equalize taxes among the counties of the state, the Republicans in their platform written at Chattanooga in May, 1920, said: "We doubt the wisdom of recent tax legislation."

He asserted that Col. Taylor in his speeches was criticizing the law without offering anything instead which would be legal. That Col. Taylor's insistence was that farm lands should be assessed at a lower rate than other classes of property.

That, said Gov. Roberts, is a demagogic appeal to ignorance by Col. Taylor. "He knows, or ought to know, if he is competent to be governor, that the constitution requires all species of property to be assessed equally and uniformly and when he makes such an appeal he insults every intelligent man and woman in Tennessee."

Taking up Col. Taylor's statement that all property ought to be assessed according to the income it produces, Gov. Roberts said that would throw the entire burden of taxation on the thrifty. If two men owned farms of exactly the same value, and one man was industrious, working from sunup till sundown, and made \$2,000 a year on his farm, he would be taxed, and the other man fox hunted or sat around the county store, playing checkers, let his farm grow up in briars and made nothing, he would not be taxed at all.

Boys Confess To Robbing Drug Store

Twelve boxes of cigars, 10 cartons of cigarettes and cash in the sum of \$120, was the loot stolen from the Stuart pharmacy, 601 South Parkway, by three Memphis youths who Friday gave Chief of Detectives Griffin a complete confession. The robbery was committed a week ago.

The youths are Howard Baird, 694 Bullington avenue; Clarence Lively, 100 South Parkway, and E. E. Watts, 294 Avery street. Lively was the first to be arrested. He confessed and implicated the other two lads.

The boys planned the robbery some time ago, they said. Sunday night they met at McLemore avenue and Rayburn boulevard and rode to the vicinity of the pharmacy in an automobile. One of the youths did the "inside work" while two stood watch on the outside.

Detectives Carter and York worked on the case for several days before anything tangible with which to work could be found.

Lecture starts promptly at 8:15.

WILSON DAM IS USING GREAT MASS OF CEMENT

FLORENCE, Ala., Oct. 16.—Since the concrete-pouring operations were begun at Wilson dam, on Sept. 25, the cement, sand and gravel used has been a strain on the supply division. The north side caisson alone has used 1,000 barrels of cement in one eight-hour shift. This is about six carloads of cement.

The sand and gravel plant is not yet operating at full capacity, due to the fact that the electrical installations necessary to operate the big unloading cranes at the dock are not yet completed. Although the locomotive cranes at the dock are busy for three consecutive shifts, they are not able to handle all the sand and gravel that the dredges and fleet can take care of. The sand and gravel is brought from an island in the Tennessee river, nine miles below Florence, to the Florence dock, where it is loaded on a government-built railroad and carried to the dam site, a distance of more than a mile.

Cement is being received at the dam in regular train movements made up largely of government-owned cars, brought for this service. Sixty of these cars are now in service and 15 more are to be added at an early date.

In addition to the coal normally received from Alabama mines, the movement of which has been somewhat interfered with by decreased production at the mines, several large loads of Kentucky coal have been secured by river. About 2,000 tons have been delivered in this manner.

FIVE HOMES LOST IN FIRE NEAR PINE BLUFF

PINE BLUFF, Ark., Oct. 16.—Five houses of the Jefferson Hardwood Lumber company's plant at Perda were destroyed by fire Wednesday afternoon with a loss of about \$3,000. The fire, it is said, was caused from a spark from a refuse burner. The houses were occupied by mill workers. The plant is owned by Thomas R. Ashcraft and G. W. Allport, of this city.

According to Clayton P. Gould, assessor of Jefferson county, the total assessed valuation of all personal property in Jefferson county this year is \$11,530,390, and increases of \$2,807,000 over last year.

Plans are being perfected for the staging of a big Democratic rally at the courthouse the night of Oct. 28. Gov.-elect T. C. McEae and United States Senator-Elect T. H. Caraway and Gov. Brough have been invited to speak.

Rapid progress on the work of the incomplete portion of the road in district No. 15, between Wabaska and Humphrey, and about 48 loads of rock are being placed on the dump each day.

JACKSON, Miss., Oct. 16.—The annual meeting of the Mississippi Baptist state convention will be held at McComb City from Nov. 16 to 18, inclusive, and it is expected that about 600 delegates from the various local associations will be in attendance. The woman's auxiliary will meet at the same time and place.

The church has enjoyed a large membership growth in Mississippi during the past year, according to reports received at Baptist headquarters in this city, and has fully met all assessments for education and mission causes.

The most interesting subject to come before the synod will be the formation of ways and means to raise Mississippi's quota of the fund proposed for the removal of the Southeastern Presbyterian university from Clarksville, Tenn., to Memphis, and re-establishment of same in the latter city. It is expected that Mississippi's quota will be about \$300,000.

CANVASS MADE TO GET WOMEN TO REGISTER

NATCHEZ, Miss., Oct. 16.—Society leaders of Natchez who are active in encouraging women to register to vote are only interested in having the women register whether they vote or not. A house-to-house canvass by wards is to be conducted to register the women of the city.

Emphasis is being laid on the fact that women who register will not be called on for jury service, or not at least until the legislature has amended present laws on qualifications for service.

The yield of pecans throughout this section will be less than half of that of last year, and the nuts are only of average quality.

Many of the farmers of this section are having their cotton ginned but are carrying it back home or placing it in warehouses. Up to the present few shipments out of Natchez have been made.

ASK REVISION OF OCEAN FLOUR FREIGHT RATES

CHICAGO, Oct. 16.—The Millers' National Federation has named a committee of 25 to supervise efforts to obtain revision of present ocean freight rates on American flour, and appropriated \$250,000 to be used by the committee in its work.

The action was taken after an all-day discussion yesterday in which it was charged present rates on flour are discriminatory. Flour should be given the same consideration as wheat, members of the federation declared, in adopting resolutions asking that the high rates established by the United States shipping board be removed as "a war time emergency no longer necessary."

Notices had been posted forbidding the men to interrupt their work to attend church services on pain of dismissal or having their wages docked. Nevertheless a majority left the works and when they returned found that the plant had been closed.
